La Trobe Melbourne is your pathway to a wide range of bachelor degrees at La Trobe University.

You will study on campus in a supportive learning environment with smaller class sizes, meaning you will have more time with your teachers.

Our students get the full university experience with access to La Trobe University facilities.

La Trobe is ranked among the top 100 emerging universities in the world (Times Higher Education, 2014).
La Trobe Melbourne is your pathway to La Trobe University. If you miss out on direct entry to a bachelor degree, our diploma programs can lead to second year entry of a wide range of bachelor degrees at La Trobe University.

You can choose from a variety of programs in the areas of business, engineering, information technology, mass media and communication, bioscience and health science.

We are located in the Sylvia Walton Building in the heart of La Trobe University’s Melbourne Campus, so you will get the complete university experience in a supportive and personal learning environment. All our diploma programs are moderated and quality assured by La Trobe University, so you’re in good hands.
Welcome

Message from the Vice-Chancellor of La Trobe University

La Trobe is a globally recognised university, transforming the lives of our students, many being the first in their family to attend university. Our strategic plan ‘Future Ready’ has objectives set to elevate us even further in Australian and world rankings.

We provide a wide range of disciplinary and professional degrees, plus we offer students an extensive range of enrichment experiences within, or alongside, assessed curriculum.

Our graduates enjoy excellent employment outcomes in a diverse range of companies, as well as government and community organisations within Australia and around the world.

With the recent construction of the new Sylvia Walton building, we are excited about further integration with La Trobe Melbourne. The new building is central to all of the amenities and life of the campus.

I encourage you to consider La Trobe Melbourne as your pathway to La Trobe University and invite you to contact us with any questions you may have.

Professor John Dewar
Vice-Chancellor
La Trobe University

Message from the College Director of La Trobe Melbourne

Welcome to La Trobe Melbourne, the pathway college of La Trobe University. I am delighted you are considering a future with us. We have been part of the University’s main campus in Melbourne since 1974, and we are proud to have one of the most diverse international student populations in Australia.

The college is located at the picturesque La Trobe University Melbourne Campus and offers a supportive learning environment with small class sizes designed to enhance the success rate of our students.

Here at La Trobe Melbourne, we provide the latest learning and teaching technologies, a fully resourced Independent Learning Centre, as well as cultural events and activities. All La Trobe Melbourne students are welcome to access a full range of University facilities, including library, computer/study halls, sports centre, clubs and associations, and more.

I look forward to welcoming you to the college community and encourage you to make La Trobe Melbourne the first step in achieving your goals.

Tony Cranshaw
College Director
La Trobe Melbourne
“La Trobe Melbourne is a perfect pathway because it helps you get to the course that you want at La Trobe University. It is also a great introduction to university learning.”
Launch your global career at La Trobe University

La Trobe University is ranked in the top 100 emerging universities in the world.*

La Trobe was the third university established in Victoria, and it is now one of Australia’s leaders in research and higher education. More than 167,000 students have graduated from La Trobe and among them are CEOs of some of Australia’s most prominent organisations, parliamentarians, medical researchers, human rights activists and Olympians.

Why choose La Trobe University?

You matter
From day one, you will have access to a support network of people who will help you get the most out of university. Connect Mentors will guide you through your first six weeks, Peer Learning Advisers will give you study advice when you need it and the team at the Career Development Centre will help you plan and start your career. La Trobe will help you settle into life at university, make new friends, succeed in your studies and prepare you for life after university.

Research that makes a difference
By studying at La Trobe University you will be a part of a community that’s contributing to new knowledge. Researchers at the La Trobe Institute of Molecular Science are looking for new ways to fight disease, while at La Trobe’s Centre for AgriBioscience they are tackling climate change and drought, and at the La Trobe Rural Health School, they are improving health and wellbeing in rural and regional communities.

The University has invested more than A$500 million in new centres of learning and research to stay at the forefront of fields that are changing the world – molecular science, biotechnology, nanotechnology, health science and agricultural bioscience.

Make the world your campus
Study law in Shanghai, nanotechnology in Tokyo, archaeology in Mexico or urban planning in Sri Lanka. La Trobe University has more than 160 exchange partners in 40 countries and you’re encouraged to take part in overseas programs as part of your studies. In fact, in 2014 the University gave travel grants and scholarships to more than 850 of students to study with partners like Michigan State University, the Chinese University of Hong Kong and the University of Leicester.

Of course, you don’t have to travel to be a global citizen – La Trobe also brings the world to you. More than 6,000 international students study at the University, making its campuses some of the most diverse in Australia.

La Trobe University campuses
La Trobe University has seven campuses in Victoria and one in Sydney.

Melbourne Campus
Located just 14km from Melbourne’s city centre, the University’s Melbourne Campus is its largest. It covers 267 hectares of stunning parkland and waterways and includes all the amenities you’d expect to find in the city.

You will find lots of cafes, restaurants, shops, banks, a hairdresser, post office, student accommodation and the University’s largest library. The campus even has its own art museum, cinema and markets.

La Trobe’s Melbourne campus is very well served by public transport – numerous buses run to the campus from various parts of Melbourne; the number 86 tram runs frequently from the city, and trains on the Epping and Hurstbridge lines stop at stations near the campus.

latrobe.edu.au/melbourne

Bendigo Campus
About 5,000 students study at La Trobe University’s second largest campus, located just 3km from Bendigo’s CBD. It occupies 33 hectares of picturesque native Australian bushland and is home to significant teaching and research centres including the La Trobe Rural Health School.

Kick start your global career

Many La Trobe University courses include work placements and internships. This means you will graduate with experience under your belt and a network of professional contacts. You will have opportunities to work with organisations like Deloitte, the Australian Synchrotron and the Commonwealth Scientific and Industrial Research Organisation (CSIRO) as part of your studies.

The University has also made entrepreneurship, global citizenship and sustainability central to all of its undergraduate degrees to ensure that you have what you need for a successful career.
La Trobe Melbourne is your pathway to La Trobe University

If you have a goal to achieve an internationally recognised bachelor degree, the La Trobe Melbourne pathway to La Trobe University ensures that you will receive extensive academic and personal support to help you succeed.

The subjects you will study are equivalent to first year of a bachelor degree at La Trobe University. Once you have successfully completed the diploma and met all requirements, you will move into second year of a degree of your choice.

Benefits of our pathway
La Trobe Melbourne is located near the centre of the campus overlooking natural surrounds.

- **Campus life:** you will have a true university experience, with access to La Trobe University facilities.
- **Three-trimester system:** we offer three intakes each year, in February, June and October. This means you can begin your studies at a time that is convenient for you, especially if you are considering fast-tracking your course.
- **Personalised attention:** our class sizes are smaller than at university. This means you will receive a high level of individual attention from your lecturers and tutors.

- **High-quality university curriculum:** our diploma programs are quality assured by La Trobe University and are equivalent to the first year of a university degree program, but with increased academic contact. Our students generally perform better than other students in their degree at the university.
- **Progression to university:** after successfully completing the diploma program at La Trobe Melbourne, you will be offered a place in a corresponding bachelor degree program at La Trobe University. Additional course requirements may apply.

How will I learn?
You will study eight subjects in your chosen diploma, which includes four hours of class contact per subject each week. The standard duration for a diploma is three trimesters (12 months). Students enrol in three subjects in the first trimester, three in the second trimester and two in the third trimester.

It is also possible to fast-track your studies to complete the diploma in two trimesters (8 months) by studying four subjects in each of the first two trimesters.

Each trimester includes 12 weeks of teaching and final exams. Assessment for all subjects includes tests, assignments and case study analysis.

Our courses
If you successfully complete a diploma program and meet other additional entry requirements, you will receive credit equivalent to the first year of a corresponding degree at La Trobe University. You will then be eligible for direct entry to the second year of that degree. Select from the following areas of study:

- Bioscience
- Business
- Engineering
- Information Technology
- Mass Media and Communications
- Health Sciences.

Progression to La Trobe University
To be eligible to enter the second year of your degree, you must receive at least a pass (50 percent) in each subject, or higher if otherwise stated. Some courses have strict quotas and higher weighted average mark requirements.
Your student life on campus

There is a lot more to university than just going to classes. You will have access to a comprehensive range of services and facilities to ensure that you receive the best possible learning experience, in and out of the classroom.

Orientation
During orientation you will finalise your enrolment and receive important information about your program, meet La Trobe Melbourne staff and students, be introduced to the range of available services and facilities, and attend information sessions. There will also be a chance to join one of the many clubs and societies on campus and find out about other social activities available to students.

Facilities
As a La Trobe Melbourne student you will also have access to the computer laboratories, wireless connectivity across the college and campus. Our students also have access to La Trobe University’s broad range of campus facilities, including the sports centre and library.

Independent Learning Centre
The Independent Learning Centre located in the Sylvia Walton Building (ILC) offers a wide range of learning resources for all levels and interests. Students can access a variety of resources online and from the shelf to support their learning. Resources include text and reference books, reading books, DVDs and online materials.

Social program
You will have access to La Trobe University’s recreational facilities, events, student clubs and associations. For more information about campus life, visit latrobe.edu.au/experience.
Choose your course

Diploma of Bioscience

If you are interested in living organisms and how they function, this diploma offers an alternative pathway to a science degree at La Trobe University. It provides an introduction to university studies in the field of science. You will learn about living organisms, focus on the structure, functions, interactions and other aspects of organisms in relation to biology, physiology and ecology.

Duration
Two or three trimesters

Intakes
February and June

Prerequisite
Year 12 Mathematics (any)

Course structure
Core subjects
• Genetics, Human Biology and Evolution
• Organisation and Function of Cells and Organisms
• Applications of Chemistry
• Basic Chemistry
• Clinical Foundations of Psychological Science
• Experimental Foundations of Psychological Science
• Data-Based Critical Thinking

Elective subjects
• Statistics for Psychology
• Human Biosciences B

Diploma of Engineering

Our Diploma of Engineering will introduce you to a range of subjects leading to second year of the engineering degrees offered at La Trobe University. The course is practical, hands-on and all of La Trobe University’s engineering degrees are accredited by Engineers Australia and include work placement in a range of fields. Depending on your chosen degree you will develop skills in a number of core areas like biomedical engineering, communication engineering, electronic and electrical systems, sustainability in energy production, automotive engineering, the application of technology in modern medicine, project management of large-scale projects, sustainable infrastructure, water resources, civil construction, surveying and computer-aided design.

Duration
Two or three trimesters

Intakes
February and June

Prerequisite
Mathematics Methods plus one of Specialist Mathematics or Physics.

Course structure

Core subjects
• Programming for Engineers and Scientists
• Engineering Practice
• Principles of Physics A
• Number Systems and Linear Algebra
• Principles of Physics B
• Engineering CAD
• Calculus and Differential Equations
• Introductory Electronics

FEE-Help (Australian Government Loan Scheme)
La Trobe Melbourne as a recognised Higher Education Provider (HEP) allows eligible students (Australian citizens) the opportunity to access the FEE-Help loan scheme. Australian citizens will move onto a Commonwealth Supported Place when they progress to La Trobe University, and be eligible for HECS. FEE-Help and HECS - Help are paid back as taxation after graduation when you have reached a minimum earning threshold. Students incur a FEE-Help debt immediately after the census date for each subject of study for which they have received FEE-Help assistance. The census date falls at the end of the 4th week of each semester. You can find out more at the government website: studyassist.gov.au

How to apply

Year 12 students
La Trobe Melbourne courses are listed in VTAC. You will need to add one of our diploma programs to your list of VTAC preferences to ensure that you get an offer. If you do not get an offer for direct entry to La Trobe University at First or Second Round in VTAC – but you meet the La Trobe Melbourne entry criteria – you are guaranteed to receive an offer for one of the diploma courses.
- Diploma of Bioscience: VTAC Code 9540195192
- Diploma of Business: VTAC Code 9540195182
- Diploma of Engineering: VTAC Code to be confirmed
- Diploma of Health Sciences: VTAC Code 9540195212
- Diploma of Information Technology: VTAC Code 9540195202
- Diploma of Mass Media & Communications: VTAC Code 9540195222

Please note that international VTAC students will require an ESL score of 20 to be admitted to the La Trobe Melbourne diploma programs.

Mature age and non-year 12 students
Mature age and non-VTAC applicants can apply through our website at latrobemelbourne.edu.au.

You will need to have the following documents available to upload, so that our Admissions team can make an accurate assessment:
- All academic qualifications
- Employment documents and/or a resume (if applicable)
- Evidence of citizenship or residency (e.g. passport, birth certificate, citizenship certificate or visa)
- You may also wish to submit a personal statement, to support your application

“La Trobe Melbourne offers a more intimate learning experience that enables you to achieve your academic objectives. The teachers and staff are incredibly supportive and always go out of their way to help whenever it is needed.”
Navitas bursaries and scholarships

Navitas family bursaries
Navitas offers financial support in the form of family bursaries. A bursary applies where two or more students from the same family study with a Navitas member institution.*

The bursary is equivalent to 10 percent of the tuition fee of your program of study.

Navitas academic merit scholarships
Navitas is committed to helping you achieve your career goals by offering scholarships to outstanding students. Each term, Navitas colleges* award two students with academic merit scholarships. The scholarship is for diploma students only, who are studying full-time and in their first trimester. There is no need to apply for the scholarship. The scholarship winners are selected based on academic performance. If more than two students are eligible, other considerations may be taken into account.

* The Navitas family bursary and academic merit scholarships are offered to students studying at ACBT, La Trobe University Sydney Campus, AUSI, BCUIC, Curtin College, Curtin University Sydney, Curtin Singapore, CRIC, Deakin College, EIBT, EIC, Eynesbury, FIC, HIC, ICM, ICP, ICRGU, ICSV, La Trobe Melbourne, LBIC, Macquarie City Campus, Navitas at FAU, Navitas at UMass Boston, Navitas at UMass Dartmouth, Navitas at UMass Lowell, Navitas at WKU, Navitas at UNH, NIC, PIBT, PUC, QIBT, SAIBT, SIIBT and UCIC only.

† Certificate programs may also be known or registered as Foundation Studies or University Transfer Program Stage I. Diploma programs may also be known or registered as Undergraduate Pathway, University Transfer Program (UTP), University Transfer Program Stage II or University Pathways Program (UPP). The Navitas bursary is not applicable to any English language program or any component of an English language program offered by a Navitas member institution.

This information is correct as at the time of printing and may be subject to change without notice or at the discretion of Navitas member institutions or Navitas Limited.
Education for your world

Navitas provides you with the education you need, to get where you want to be in life. From English language skills and courses to help you enter university, to training for the workplace, Navitas colleges and campuses in 28 countries will support you on the way.

With over 120 Navitas and SAE Institution locations across the globe, and over 80,000 students currently studying with us, we understand the world’s learning needs. We’ve become one of the most trusted providers of education and training in the world.

Navitas offers to students, professionals and migrants from around the world, the following opportunities:

• English language training
• High school studies
• University preparation and programs
• Post-secondary education for creative media technology
• Career advancement programs
• Student recruitment
• Internship programs
• Migrant settlement services

We also offer customised workplace training for companies, and a range of training and settlement services for the Australian Government. Wherever you are, and wherever you want to be, the knowledge and resources of our staff around the world will ensure your success.
